

FORTY-FIRST

ANNUAL ANNOUNCEMENT

OF

# RUSH MEDICAL COLLEGE

Corner of Wood and West Harrison Streets,

CHICAGO.

---

FOR THE

SESSION OF 1883-84.

---

CHICAGO:

A. G. NEWELL, PRINTER.

1883.

# BOARD OF TRUSTEES.

---

HON. L. C. P. FREER, PRESIDENT.

JOSEPH P. ROSS, M.D., VICE-PRESIDENT.

HON. GRANT GOODRICH, LL.D., SECRETARY.

MOSES GUNN, M.D., TREASURER.

HENRY M. LYMAN, M.D., ASSISTANT SECRETARY.

J. ADAMS ALLEN, M.D.

EDWARD L. HOLMES, M.D.

DELAASKIE MILLER, M.D.

JAMES H. ETHERIDGE, M.D.

CHARLES T. PARKES, M.D.

R. C. HAMILL, M.D.

HON. JOHN C. HAINES.

HIS EXCELLENCY B. B. HAMILTON, *Governor.*

HON. L. C. COLLINS, *Speaker House of Representatives,*

J. ADAMS ALLEN, M.D., LL.D., *President of the College.*

} *Ex-Officio.*

# FACULTY.

---

J. ADAMS ALLEN, M.D., LL.D., PRESIDENT.

Professor of the Principles and Practice of Medicine,  
125 State Street.

DE LASKIE MILLER, PH.D., M.D.,

Professor of Obstetrics and Diseases of Children,  
2011 Prairie Avenue.

MOSES GUNN, M.D., LL.D.,

Professor of Principles and Practice of Surgery and Clinical Surgery,  
2401 Calumet Avenue.

JOSEPH P. ROSS, A.M., M.D.,

Professor of Clinical Medicine and Diseases of the Chest,  
428 West Washington Street.

WILLIAM H. BYFORD, A.M., M.D.,

Professor of Gynæcology,  
125 State Street.

EDWARD L. HOLMES, A.M., M.D.,

Professor of Diseases of the Eye and Ear,  
207 Clark Street.

HENRY M. LYMAN, A.M., M.D.,

Professor of Physiology and of Diseases of the Nervous System,  
17 Dearborn Street.

JAMES H. ETHERIDGE, A.M., M.D., SECRETARY,

Professor of Materia Medica and Medical Jurisprudence,  
1634 Michigan Avenue.

CHARLES T. PARKES, M.D.,

Professor of Anatomy, Descriptive and Surgical,  
125 State Street.

WALTER S. HAINES, A.M., M.D.,

Professor of Chemistry, Pharmacy and Toxicology,  
Rush Medical College.

JAMES NEVINS HYDE, A.M., M.D.,

Professor of Skin and Venereal Diseases,  
240 Wabash Avenue.

NORMAN BRIDGE, M.D.,

Professor of Hygiene, and Adjunct Professor of the Principles and Practice of Medicine,  
81 Throop Street.

## PROFESSORS OF SPECIAL DEPARTMENTS.

W. W. ALLPORT, M.D., D.D.S.,  
Emeritus Professor of Dental Pathology and Surgery.

TRUMAN W. BROPHY, M.D., D.D.S.,  
Professor of Dental Pathology and Surgery, 125 State Street.

E. FLETCHER INGALS, A.M., M.D.,  
Professor of Laryngology, 188 Clark Street.

---

## ADJUNCT PROFESSORS AND LECTURERS.

J. SUYDAM KNOX, A.M., M.D.,  
Adjunct Professor of the Diseases of Children and Lecturer on Obstetrics, 16 Loomis Street.

DANIEL T. NELSON, A.M., M.D.,  
Adjunct Professor of Gynæcology, 125 State Street.

PHILIP ADOLPHUS, M.D.,  
Clinical Adjunct to the Chair of Gynæcology, 638 West Washington Street.

ALBERT B. STRONG, A.M., M.D.,  
Demonstrator and Lecturer on Anatomy, 533 West Monroe Street.

LAFAYETTE W. CASE, M.D.,  
Lecturer on Dermatology, 374 N. Market Street.

WILLIAM T. BELFIELD, M.D.,  
Lecturer on Physiology and Pathology, 71 Dearborn Street.

EUGENE W. WHITNEY, A.B., M.D.,  
Lecturer on Surgical Dressings and Demonstrator of Surgery, 992 West Madison Street.

ALFRED C. COTTON, M.D.,  
Lecturer on Materia Medica and Therapeutics, 690 West Madison Street.

ROSWELL PARK, A.M., M.D.,  
Lecturer on Surgery, 1558 Wabash Avenue.

EUGENE S. TALBOT, M.D., D.D.S.,  
Lecturer on Dental Anatomy and Physiology, 125 State Street.

SAMUEL J. HOLMES, M.D.,  
Lecturer on Pathological Anatomy and Histology, 315 Fulton Street

DANIEL R. BROWER, M.D.,  
Lecturer on the Practice of Medicine, 188 Clark Street.

H. P. MERRIMAN, A.M., M.D.,  
Lecturer on Gynæcology, 125 State Street.

---

JOHN A. ROBISON, A.M., M.D.,  
Assistant to the Chair of Clinical Medicine.

LEWIS L. MCARTHUR, M.D.,      WILLIAM H. TAYLOR, A.B., M.D.,  
CASSIUS D. WESCOTT, M.D.,  
Demonstrators of Chemistry.

FREDERICK E. SHERMAN, M.D.,      THOMAS J. SHAW, M.D.,  
Assistant Demonstrators of Anatomy.

EDWARD P. DAVIS, A.M., M.D.,  
Demonstrator of Physiology and Prosector to the Chair of Surgery.

WM. H. MORGAN, M.D.,  
Clinical Assistant to the Chair of Diseases of Children.

---

MR. FRANK JORDAN GOULD, *College Clerk.*

# ANNUAL ANNOUNCEMENT

*For the Session of 1883-84.*

---

THE FORTY-FIRST ANNUAL SESSION OF RUSH MEDICAL COLLEGE will commence Tuesday evening, September 25, 1883, and will continue twenty-one weeks. The introductory address will be delivered by Professor Henry M. Lyman.

Instruction in this institution is given by clinical and didactic lectures, practical work in the dissecting room and laboratories, and by repeated oral examinations.

## THREE YEARS' COURSE.

The Faculty desire that as many as possible of the matriculates of this institution shall pursue their studies in the College during three winter and three spring terms. To encourage this more extended curriculum of College study, final examinations in descriptive anatomy, physiology, chemistry, materia medica, and therapeutics, are open to three years' students at the end of the second winter session.

To each graduate who has studied, as above recommended, three full winter terms and at least one spring term, will be awarded, in addition to the diploma, a certificate of honor, signed by the Faculty of the College. All who intend to pursue this course are requested to signify such intention at the time of matriculation.

## COURSE OF STUDY.

Students of the College and those who are pursuing their studies elsewhere with the intention of completing their collegiate course at this institution, are urged to follow the schedule of lectures and studies presented below.

The daily order of lectures and clinics at the hospitals and dispensaries will be arranged, as far as possible, in accordance

with this schedule, not only to accommodate junior students, but also advanced students and practitioners who desire to review their studies.

As the Spring Course has become a most important addition to the College work, the period of study required for graduation is divided into six terms. The following schedule of studies has been adapted to the wants and convenience of students during each period of their progress, whether they are in the College or preparing to enter.

There is reason to believe that it is of far greater advantage to the student, during his collegiate course, to study and carefully review a single text-book in each department of medicine, than cursorily to read several. Students are, therefore, recommended to confine their reading to those text-books, and those portions of the same designated in this schedule as suitable for each term respectively.

### TEXT BOOKS FOR STUDY.

Wilson's (1880) or Gray's Anatomy. Heath's Dissector. Foster's Physiology. Attfeld's Chemistry. Bristowe's Practice of Medicine. Druitt's Surgery, for beginners; Gross' or Erichsen's, for advanced students. Byford's Obstetrics. Byford's Diseases of Women. The National Dispensary. Green's Pathology. Williams' or Carter's Diseases of the Eye. Satterthwaite on Histology. Day on Diseases of Children. Flint's Clinical Medicine, Hyde's Dermatology.

Practitioners who receive students are recommended to direct their studies in accordance with the following schedule and to use the above-named text-books.

### SCHEDULE OF STUDIES.

#### First Term—Spring.

LECTURES:—*Anatomy*—Cells, Fibers, Membranes, Viscera, and Long Bones. *Physiology*—Blood, Circulation, Respiration. *Inorganic Chemistry*.

Dissection of the Viscera; study of the Long Bones. Surgical Clinics at the College, Hospital and Dispensary.

**Second Term—Winter.**

LECTURES :—*General Anatomy—Materia Medica—Physiology—Alimentation, Digestion, Absorption. Inorganic Chemistry*, with Laboratory work. *Surgery—Ulceration and Suppuration*, and their results.

Surgical Clinics. Dissection of the external soft parts, Study of the Bones. Practice of Auscultation and Percussion of the Normal Chest and Abdomen.

**Third Term—Spring.**

LECTURES :—*General Anatomy—Bones—External soft parts. Chemistry—Laboratory work—Analysis. Urinalysis. Physiology—Secretion, Nutrition, Movements. Surgery—Surgical Dressings and Appliances. Principles and Practice of Medicine—Congestion, Inflammation and its Results, Fever—Materia Medica, Diseases of Children.*

Exercises in Auscultation and Percussion. Dissection of the external soft parts. Special Dissection of the Pelvis, and of its organs, and of the Fœtus. Medical and Surgical Clinics.

**Fourth Term—Winter.**

LECTURES :—*General Anatomy—Regional Dissections, Brain and Spinal Column, Histology. Physiology—Nervous System, Reproduction. Organic Chemistry—Laboratory. Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics—Generation, Fœtal Development, Normal Parturition, Dermatology and Venereal Diseases.*

Exercises in bandaging and application of splints. Operations on the Cadaver. Anatomy and Physiology of the Eye and Ear, Laryngology. Exercises in Auscultation and Percussion. Medical and Surgical Clinics. Pathology and Post Mortem Examinations, Dental Pathology, Medical Jurisprudence.

Final examinations in Descriptive Anatomy, Physiology, Chemistry, Materia Medica and Therapeutics for those who take three winter courses.

**Fifth Term—Spring.**

LECTURES :—*Anatomy, Physiology, Chemistry, Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics, Hygiene, Medical Jurisprudence, Genito-Urinary Diseases.*

Regional Dissections, Chemical Laboratory Work, Toxicology and Special Researches.

Clinics, general and special: Diseases of Women and Children. Pathology and Post Mortem Examinations.

#### Sixth Term—Winter.

All Lectures and Clinics, Regional Dissections; Post Mortem Examinations. General Review.

Students who have passed the final examination in the elementary branches at the end of the fourth term, may devote their third year especially to the practical branches and to clinics.

### PRACTICAL CHEMISTRY.

The College is provided with a thoroughly furnished students' laboratory for practical chemistry.

Professor Haines will give a special course in practical chemistry, devoting to the work three afternoons of each week. The course will include a series of experiments in qualitative analysis, urinalysis and toxicology. The student will make the analyses and examinations himself, under the supervision of the Professor.

Since a course in practical chemistry has been made one of the requirements for graduation in this College, students will find the spring term a most convenient time for the pursuit of this study. The Course in Pharmacy in this College is full and complete; and graduates of this College will be fully qualified for the Practice of Pharmacy.

### PRACTICAL ANATOMY.

The best advantages are afforded for the practical study of anatomy, including osteology. Material in abundance is provided. The most recent and approved means of illustration by the calcium light will be used.

### PRACTICAL PHYSIOLOGY.

The Physiological Laboratory is abundantly supplied with microscopes and other apparatus for study, and will be open for work during the winter and spring courses.

## INSTRUCTION IN DENTISTRY.

The Faculty has introduced into this institution a course of instruction in Dental Surgery. It must be distinctly understood that instruction will only be given in the theoretical principles necessary for comprehension of the diseases of the teeth and their treatment. Clinical instruction in dental diseases will be taught in the dental department of the Central Dispensary, in the College building. The art of dental manipulation and the clinical treatment of diseases of the teeth, will be taught by actual demonstration at the Chicago Dental Infirmary, under the direction of the most experienced and skillful dental surgeons in Chicago. In this infirmary, students desiring to make a specialty of dentistry, will receive practical instruction in the medical and surgical treatment of the teeth. All such students, at the conclusion of their medical course, will receive, from the incorporators and trustees of the infirmary, certificates of qualification for the practice of dental surgery. Such certificates are equivalent to the degree of D. D. S., conferred by the dental colleges. No charge in addition to the usual medical college fees will be made for attendance upon the dental lectures, nor for clinical instruction in the Central Dispensary; but from those who desire the *certificate* of instruction in the Dental Infirmary, a small fee will be required by that institution.

## CLINICAL INSTRUCTION IN THE COLLEGE BUILDING.

## Medicine and Surgery.

A SURGICAL CLINIC will be given by Professor Gunn every Saturday; a clinic on DISEASES OF THE CHEST by Professor Ross, and one on the DISEASES OF THE NERVOUS SYSTEM, by Professor Lyman, every Thursday; and a MEDICAL CLINIC by Professor Bridge, every Monday; continuing throughout the year.

## Diseases of Children.

Professor Miller, aided by Adjunct Professor J. S. Knox, will also give before the entire class in the amphitheater, one special clinic, each week throughout the year, on DISEASES OF CHILDREN.

**Gynæcology.**

Professor Byford, with Professors Etheridge and Nelson and Dr. P. Adolphus, will hold a daily clinic in the College building, for the special instruction of the graduating class in **CLINICAL GYNÆCOLOGY**.

The class will be so subdivided into small sections that each student will have extensive opportunities for the practical study of this important subject.

In addition to these daily clinics, before small sections of the graduating class, there will be given each week one public clinic, when the most interesting cases will be presented.

**Skin and Venereal Diseases.**

Professor Hyde will give a clinic on **SKIN AND VENEREAL DISEASES** at 3 P. M. of every Monday throughout the year, in the upper amphitheater of the building. The extensive collection of plates and photographs, lately purchased by the College, has been arranged in cabinets, on the same floor and adjacent to the amphitheater, with especial view to the illustration of this department.

**Diseases of the Eye and Ear.**

Professor Holmes, with the assistance of Dr. W. T. Montgomery, will give at 3 P. M. every Wednesday throughout the year, a clinic, in the amphitheater, on **DISEASES OF THE EYE AND EAR**.

**THE COUNTY HOSPITAL.**

(Opposite the College Building.)

The hospital, standing on a block of twelve acres of land, was erected at a cost of nearly a million dollars.

Two new Pavilions have been erected, which have greatly increased the capacity of this commodious structure.

The amphitheater of the hospital, with a seating capacity for six hundred persons, is the room in which all the surgical, medical, and special clinics are held. More than two thousand patients were treated at the hospital during the past year, and hundreds of important surgical operations were performed, of which many were capital amputations.

In the rear of the amphitheater is the Necropsy Theater, in which are held all the post-mortem examinations of the hospital. Ample opportunities are given for the complete study of the gross as well as of the microscopical appearances produced by disease.

#### **THE ILLINOIS CHARITABLE EYE AND EAR INFIRMARY.**

This institution affords the largest facilities for the clinical study of Diseases of the Eye and Ear.

During the past year more than 2000 patients received treatment at the Infirmary, and nearly 300 operations were performed.

Regular clinics will be given during each week of the session by Drs. Holmes, Hotz, Ware, Montgomery, Schæfer and Bishop.

#### **THE CENTRAL FREE DISPENSARY.**

Excellent opportunities are offered to students and practitioners, for clinical instruction at the Central Free Dispensary, which occupies the first floor of the College building. Nearly twenty thousand patients received treatment in this dispensary during the past year. Patients are classified according to their diseases. A wide field is here afforded for the study of specialties.

One clinic will be given weekly, by each of the following named gentlemen :

Professor E. F. Ingals and Dr. J. A. Robison, on DISEASES OF THE CHEST AND THROAT ; Drs. W. J. Maynard and R. D. MacArthur, on SKIN AND VENEREAL DISEASES ; Drs. D. W. Graham, and E. W. Whitney, on SURGERY ; Dr. W. T. Montgomery and Dr. J. Elliott Colburn, on DISEASES OF THE EYE AND EAR ; Dr. A. C. Cotton, on DISEASES OF CHILDREN ; Dr. W. T. Belfield, on GENITO-URINARY DISEASES.

#### **DISEASES OF THE TEETH AND MOUTH.**

Professor T. W. Brophy and Dr. E. S. Talbot will give three weekly clinics in this department of the Dispensary.

A large number of cases are treated at these clinics, which are of no less interest and practical importance to the student of medicine and surgery than to the dentist.

## HOSPITAL INTERNES.

Positions of Interne in the Cook County, the Michael Reese, and the St. Luke's Hospitals, and the Illinois Charitable Eye and Ear Infirmary are open each spring to students who are graduated and pass a competitive examination held by the respective hospital staffs.

The occupants of these positions receive their board and lodging ; and acquire an extensive experience in every department of practical medicine and surgery.

## SPRING COURSE.

The Faculty direct special attention to the great advantages offered by the Spring Course, beginning the twenty-sixth day of February, at 10 A. M., and continuing sixteen weeks. It consists of lectures and recitations at the College, practical work in the laboratories and dissecting room, and clinical instruction in the hospitals and dispensaries.

During the last week of each term the students will be examined, and will receive certificates of attendance and grade of examination. The grade will indicate the average standing in all the departments attended. Students who prefer it, may include only a part of the branches taught, according to the schedule of studies above presented, and be relieved from examinations in other departments. In the studies taken, a correspondingly higher standing will be demanded for a given grade.

This course cannot be considered as a "*course of lectures*," in the requirements for graduation.

It is a source of satisfaction to the Faculty, as it must be to all friends of the College, that so many young men are impressed with the importance of spending two terms each year in their professional study. Nearly three hundred students matriculated during the spring session of 1883.

## EXAMINATIONS.

Examinations for the degree of Doctor of Medicine are held only once annually, during the last week of the winter session.

Students, however, who will enter the college for at least three full winter terms of study may receive their final examinations, in Descriptive Anatomy, Physiology, Chemistry, Materia Medica, and Therapeutics at the close of the second winter term. This will enable them to devote special attention to clinics and the practical branches during the third winter session. Students who take the three winter courses and desire to be examined in the elementary branches, as above indicated, will be required to advance one-half of the examination fee. (See *Fees*, page 14.)

### GRADUATION.

The following are the requirements for the degree of Doctor of Medicine:

1st. The candidate must be twenty-one years of age, and must give satisfactory evidence of possessing a good moral character, with such primary education as is clearly requisite for a proper standing with the public and the profession.

2d. He must have pursued the study of medicine three years, and have attended at least two full courses of lectures, of which the first one may have been in some other recognized medical college, but the last must have been in this institution. The lectures of the spring term cannot be considered as a "*course of lectures*" in this requirement.

3d. He must have received clinical instruction during at least two college terms.

4th. He must have pursued the study of Practical Anatomy, under the direction of the Demonstrator, and to the extent of having dissected each region of the body.

5th. He must have taken one course in Practical Chemistry, under the direction of the Professor of Chemistry.

6th. He must notify the Secretary of the Faculty of his intention to become a candidate, depositing the amount of the examination fee with the Treasurer, on or before the 20th day of January.

7th. Every candidate must undergo a full and satisfactory written or oral examination on each branch taught in the College.

**FEES FOR THE REGULAR WINTER COURSE.**

MATRICULATION FEE (GOOD TILL THE FOLLOWING MARCH)	\$5.00
LECTURE FEES FOR THE COURSE .....	75.00
ADMISSION TO THE DISSECTING ROOM TILL THE FOLLOW- ING MARCH—MATERIAL AT COST PRICE.....	5.00
ADMISSION TICKETS ARE ISSUED ONLY TO HOLDERS OF THE GENERAL TICKET.	

PRACTICAL CHEMISTRY—CHEMICALS AT COST PRICE.....	5.00
FINAL EXAMINATION—FEE NOT RETURNABLE .....	30.00

Three years' students, examined at the end of their second winter, must advance one-half of this fee.

*There is no fee for graduation.* When fully qualified, the candidate is entitled to the degree, and the diploma in testimony thereof.

From Alumni of this college, and from its students who have taken and paid for two full courses of lectures, the Matriculation Fee only (\$5.00) will be required. From alumni of other recognized medical colleges, the Matriculation Fee and one-half Lecture Fee will be required.

**FEES FOR THE ANNUAL SPRING COURSE.**

MATRICULATION FEE (GOOD TILL THE FOLLOWING MARCH)	\$5.00
LECTURE TICKETS .....	20.00
THIS AMOUNT WILL BE DEDUCTED FROM THE FEES OF THE NEXT FOLLOWING WINTER SESSION.	

GRADUATES OF THE COLLEGE ARE ADMITTED ON PAYMENT OF THE MATRICULATION FEE ONLY; GRADUATES OF OTHER REGULAR MEDICAL COLLEGES ON PAYMENT OF MATRICULATION FEE AND TEN DOLLARS.

FEE FOR PRACTICAL CHEMISTRY (STUDENTS WILL ALSO PAY COST PRICE FOR CHEMICALS USED).....	5.00
ADMISSION TO THE DISSECTING ROOM—MATERIAL AT COST PRICE .....	5.00
TICKETS FOR THE COOK COUNTY HOSPITAL, AND FOR THE EYE AND EAR INFIRMARY, GOOD FOR ONE YEAR, EACH .....	5.00

## DIRECTIONS TO STUDENTS.

Students will matriculate, and obtain their tickets at the College, from the Treasurer, Professor GUNN, or from Mr. FRANK J. GOULD, College Clerk.

Students may select their seats in the lecture rooms when they take their tickets, or the Treasurer will select seats for them, on receipt of the matriculation fee previous to the opening of the session ; but seats thus pre-empted, if not occupied before the end of the second week of the winter term, will be forfeited and assigned to students who are present to occupy them.

The College Clerk may be seen in the College building, and will aid in obtaining boarding-places, rooms, etc.

Students receive their mail at the College building twice daily.

For further information address the Secretary, Professor J. H. ETHERIDGE, No. 1634 Michigan avenue.

## BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from \$3.00 to \$5.00 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates. Day board, \$2.50 to \$4.00 weekly.

## TEXT BOOKS.

Students will find a good assortment of medical books and surgical instruments in this city. The following books of reference, among others, are recommended :

*Chemistry*.—Attfield.

*Anatomy*.—Quain, Wilson (1880), Gray, Heath's Dissector.

*Physiology*.—Foster, Carpenter.

*Materia Medica and Therapeutics*.—The National Dispensatory, Ringer, Binz.

*Medical Jurisprudence*.—Elwell, Taylor, Beck, Casper.

*Obstetrics*.—Playfair, Cazeaux.

*Diseases of Women*.—Byford, Barnes.

*Diseases of Children*.—Smith, Day.

*Surgery and Surgical Pathology.*—For first course students, Druitt.—For advanced students, Gross, Erichsen, Holmes, Paget.  
*Practice of Medicine.*—Flint, Bristowe, Watson.  
*Nervous Diseases.*—Rosenthal, Bramwell, Ross.  
*Pathology.*—Rindfleisch, Billroth.  
*Clinical Medicine.*—Bennett, Trousseau.  
*Diseases of the Heart.*—Flint, Walsh.  
*Diseases of the Lungs.*—Walsh, Fuller.  
*Physical Diagnosis.*—Ingals.  
*Surgical Anatomy.*—MacLise, Godlee.  
*Microscopical Anatomy.*—Stricker, Satterthwaite, Schaefer.  
*Ophthalmology.*—Williams, Wells, Stellwag, Carter.  
*Otology.*—Roosa, Burnett, Buck.  
*Dermatology.*—Hyde.  
*Hygiene.*—Buck, Parkes.

#### PRACTITIONERS COURSE.

The Practitioners' Course of lectures in this College will commence on Tuesday, April 2d, 1884, at 10 A. M., and will continue four weeks.

The Faculty desire to announce distinctly that this Course is for the special benefit of practitioners of medicine, graduates or non-graduates, and is wholly distinct from the lectures to students in the College curriculum. A certificate of attendance signed by the President and Secretary of the college, is granted at the conclusion of the course.

The upper auditorium of the college building is devoted exclusively to the use of practitioners during these lectures, which will thus be entirely separate from the annual spring course attended by students in the lower amphitheater. A requisite portion of the dissecting room is also, during the month, exclusively allotted to those in attendance who desire to dissect or to perform the operations of surgery. An abundance of material, both for operations and dissections, is supplied at cost.

Lectures will be given by the Faculty on the subjects named below :

PROFESSOR ALLEN, on Renal Diseases and Diabetes.

PROFESSOR MILLER, on Selected Topics in Obstetrics.

PROFESSOR GUNN, on the Philosophy of Manipulation in

Dislocations of the Hip and Shoulder ; and some of the more important Fractures and Operations, with Practical Demonstrations.

PROFESSOR ROSS, on the Clinical Investigation of the Diseases of the Heart.

PROFESSOR BYFORD will present such subjects in connection with Gynæcology as are of special interest to the General Practitioner.

PROFESSOR HOLMES on The Diagnosis and Treatment of Important Diseases of the Eye and Ear.

PROFESSOR LYMAN, on Diseases of the Nervous System.

PROFESSOR ETHERIDGE, on New Remedies.

PROFESSOR PARKES, on Regional Demonstrations and Special Dissections.

PROFESSOR HAINES, on the Chemistry of the Urine.

PROFESSOR HYDE, on the Skin and Venereal Diseases of most Frequent Occurrence.

PROFESSOR BRIDGE, on the Prevention of Disease and the Treatment of the Sick by Measures of Practical Hygiene.

PROFESSOR INGALS, on Laryngology.

DR. BELFIELD, on Genito-Urinary Diseases.

Four lectures will be given daily, between the hours of 8 A. M. and 12 M. From 2 to 4 P. M. of each day the regular College, dispensary and hospital clinics will be held. At these clinics, seats will be reserved in the arena of the College amphitheater, for practitioners in attendance, thus affording them the amplest opportunities for practical observation and study.

In addition, practical instruction will be given each day in Gynæcology, by the clinical adjuncts of that chair, Professors Etheridge and Nelson, and Dr. Adolphus. Facilities are thus extended for intimate personal examination of a large number of interesting cases in this department.

Fees for the entire course, including matriculation, clinical instruction, and use of dissecting room (material only extra and at cost), thirty dollars. Tickets can be had at any time by applying to the Clerk of the College, Mr. FRANK J. GOULD, at the College building, either in person or by letter. Seats can be secured by forwarding the matriculation fee to the Clerk of the College.

## PRELIMINARY EXAMINATION.

In accordance with the announcement heretofore made, a preliminary examination will be required hereafter as a condition of admission to the regular winter course of lectures.

Gentlemen who are graduates of a literary or scientific college, academy, or high school, or who have passed the entrance examination to a literary college in good standing; who have a county or state teacher's certificate; graduates in medicine; previous matriculates of this college; and students who desire to pursue a special course of study—other than for the purpose of securing the degree—will be exempt from this examination.

The examination will include the writing of a brief paper on a subject to be given; and an examination in the elementary principles of physics\* and mathematics as taught in the public schools of the country. The written paper will be a sufficient indication of the student's knowledge of orthography and grammar, as well as of the subject given.

Students may take this examination either at the beginning or end of the spring term, or at the beginning of the regular winter session.

Gentlemen are advised, before coming to the College, to acquire the documentary evidence of their preliminary education, as indicated above, and thus save themselves the necessity of an examination.

Arrangements will be made for holding this examination in parts of the country at a distance from Chicago.

Students who have completed a full course of study equivalent to that required for admission to this college, may, by special arrangement, be admitted on the certificates of their instructors.

*It is important to notice that the diplomas of such schools as do not require an examination preliminary to entrance, are not accepted as qualifying for practice in Illinois.*

The Triennial Announcement, published this year, containing the names of all of the Alumni, can be obtained upon application to the Secretary.

---

\* Or Physics as taught in Fowne's "Chemistry," Steele's "Fourteen Weeks in Natural Philosophy," or any other similar text-book.

1883.

## Faculty.

---

J. ADAMS ALLEN, M.D., LL.D., PRESIDENT,  
Professor of the Principles and Practice of Medicine.

125 State Street

DELAKEIE MILLER, PH.D., M.D.,  
Professor of Obstetrics and Diseases of Children.

2011 Prairie Avenue

MOSES GUNN, M.D., LL.D.,  
Professor of Principles and Practice of Surgery and Clinical Surgery.

2101 Calumet Avenue

JOSEPH P. ROSS, A.M., M.D.,  
Professor of Clinical Medicine and Diseases of the Chest.

428 West Washington Street

WILLIAM H. BYFORD, A.M., M.D.,  
Professor of Gynæcology.

125 State Street

EDWARD L. HOLMES, A.M., M.D.,  
Professor of Diseases of the Eye and Ear.

207 Clark St., N. E. cor. of Adams

HENRY M. LYMAN, A.M., M.D.,  
Professor of Physiology and of Diseases of the Nervous System.

71 Dearborn Street

JAMES H. ETHERIDGE, A.M., M.D., SECRETARY,  
Professor of Materia Medica and Medical Jurisprudence.

1634 Michigan Avenue

CHARLES T. PARKES, M.D.,  
Professor of Anatomy, Descriptive and Surgical.

125 State Street

WALTER S. HAINES, A.M., M.D.,  
Professor of Chemistry, Pharmacy and Toxicology.

Rush Medical College

JAMES NEVINS HYDE, A.M., M.D.,  
Professor of Skin and Venereal Diseases.

240 Wabash Avenue

NORMAN BRIDGE, M.D.,  
Professor of Hygiene, and Adjunct Professor of the Principles and Practice of Medicine.

81 Throop Street

---

## PROFESSORS OF SPECIAL DEPARTMENTS.

W. W. ALLPORT, M.D., D.D.S.,  
Emeritus Professor of Dental Pathology and Surgery.

TRUMAN W. BROPHY, M.D., D.D.S.,  
Professor of Dental Pathology and Surgery.

125 State Street

E. FLETCHER INGALS, A.M., M.D.,  
Professor of Laryngology.

188 Clark Street

## FACULTY.

- J. SUYDAM KNOX, A.M., M.D.,**  
Adjunct Professor of the Diseases of Children and Lecturer on Obstetrics.  
16 Loomis Street
- DANIEL T. NELSON, A.M., M.D.,**  
Adjunct Professor of Gynecology.  
2400 Indiana Avenue
- PHILIP ADOLPHUS, M.D.,**  
Clinical Adjunct to the Chair of Gynecology.  
638 West Washington Street
- ALBERT B. STRONG, A.M., M.D.,**  
Demonstrator and Lecturer on Anatomy.  
533 West Monroe Street
- LAFAYETTE W. CASE, M.D.,**  
Lecturer on Dermatology.  
374 N. Market Street
- WILLIAM T. BELFIELD, M.D.,**  
Lecturer on Physiology and Pathology.  
71 Dearborn Street
- EUGENE W. WHITNEY, A.B., M.D.,**  
Lecturer on Surgical Dressings and Demonstrator of Surgery.  
992 West Madison Street
- ALFRED C. COTTON, M.D.,**  
Lecturer on Materia Medica and Therapeutics.  
690 West Madison Street
- ROSWELL PARK, A.M., M.D.,**  
Lecturer on Surgery.  
1538 Wabash Avenue
- FREDERICK H. MERCER, M.D.,**  
Lecturer on Insanity.  
37 26th Street
- EUGENE S. TALBOT, M.D., D.D.S.,**  
Lecturer on Dental Anatomy and Physiology.  
115 State Street
- SAMUEL J. HOLMES, M.D.,**  
Lecturer on Morbid Anatomy.  
315 Fulton Street
- DANIEL R. BROWER, M.D.,**  
Lecturer on the Practice of Medicine.  
188 Clark Street
- 
- DAVID W. GRAHAM, A.M., M.D.,**  
Assistant in Clinical Surgery.
- JOHN A. ROBISON, A.M., M.D.,**  
Assistant to the Chair of Clinical Medicine.
- LEWIS L. MCARTHUR, M.D.,**  
**WILLIAM H. TAYLOR, A.B., M.D.,**  
**CASSIUS D. WESCOTT,**  
Demonstrators of Chemistry.
- FREDERICK E. SHERMAN, M.D.,**  
**THOMAS J. SHAW, M.D.,**  
Assistant Demonstrators of Anatomy,
- EDW. P. DAVIS, A.M., M.D.,**  
Demonstrator of Physiology and Prosector to the Chair of Surgery.
- WM. H. MORGAN, M.D.,**  
Clinical Assistant to the Chair of Diseases of Children.
- 
- MR. FRANK JORDAN GOULD, College Clerk.**

# SPRING COURSE.

1883.

---

*Learn 187*  
THE TWENTY-THIRD ANNUAL SPRING SESSION of Rush Medical College will begin on Wednesday, the 28th of February, 1883, and will continue sixteen weeks, closing Wednesday, June 19.

The Spring term in this College covers the field of medical instruction as thoroughly in all departments as the usual regular course of lectures in medical colleges; but it cannot be ranked among the conditions of graduation as a substitute for attendance during the Winter term.

In addition to a complete course of lectures on all the important branches of medicine, especially good opportunities are offered during the Spring session for clinical observation, and for practical work in the dissecting room, and in the chemical and physiological laboratories.

That the importance of this course has been highly appreciated, may be known from the fact that 126 students matriculated in the Spring term of 1878, 187 in that of 1879, 227 in that of 1880, 254 in that of 1881, and 269 in that of 1882.

At the close of each term, students will be examined and will receive certificates of attendance and grade of examination, marked on a scale of seven. The grade will indicate the average standing in all the departments attended. Students who prefer to devote attention to only a part of the branches taught may do so, and be relieved from examinations in other departments. In the studies taken a correspondingly higher standing will be demanded for a given grade.

The Faculty desire that as many as possible of the matriculates of this institution shall pursue their studies in the college during three winter and three spring terms. To encourage this more extended curriculum of college study, final examinations in descriptive anatomy, physiology, chemistry, materia medica and therapeutics, are offered to three-years students at the end of the second winter session.

To every graduate who has studied three full winter terms and at least one spring term, will be awarded, in addition to the diploma, a certificate of honor, signed both by the Faculty of the college and by Lecturers in the spring course. All who intend to pursue this course are requested to signify such intention at the time of matriculation.

## PRACTICAL CHEMISTRY.

The college is provided with a thoroughly furnished students laboratory for practical chemistry.

A special course in practical chemistry will be given, three afternoons of each week being devoted to the work.

Since a course in practical chemistry has been made one of the requirements for graduation in this college, students will find the spring term a most convenient time for the pursuit of this study.

**PRACTICAL ANATOMY.**

The very best advantages for the practical study of anatomy, including osteology, will be afforded. Material in abundance will be provided. The Demonstrators will be in daily attendance on this study.

**PRACTICAL PHYSIOLOGY.**

The Physiological Laboratory is abundantly supplied with microscopes and other apparatus for study, and will be open for work during the winter and spring courses. A course of lessons in Histology and Practical Microscopy will be given by Dr. Belfield.

## CLINICAL INSTRUCTION

### IN THE COLLEGE BUILDING.

**SURGERY.**

A SURGICAL CLINIC will be given by Prof. Gunn every Saturday, at 2 o'clock, throughout the year.

**MEDICINE.**

Prof. Ross will give a clinic on Diseases of the Chest, every Wednesday (4 p. m.)

Prof. Lyman will give a clinic every Thursday (3 p. m.) on diseases of the Nervous System.

Prof. Bridge will give a clinic in General Medicine every Monday (2 p. m.) throughout the year.

**DISEASES OF CHILDREN.**

Prof. Miller, aided by Adjunct Prof. Knox, will also give before the entire class in the amphitheater, one special clinic, each week throughout the year, on DISEASES OF CHILDREN.

**GYNECOLOGY.**

Prof. Byford, with Prof. D. T. Nelson and Dr. P. Adolphus, will hold a daily clinic in the college building, for the special instruction of the class in CLINICAL GYNECOLOGY.

The class will be so divided into small sections that each student will have extensive opportunities for the practical study of this important subject.

In addition to these daily clinics, before small sections of the class, there will be given each week one public clinic, when the most interesting cases will be presented.

**SKIN AND VENEREAL DISEASES.**

Prof. Hyde will give a clinic on SKIN AND VENEREAL DISEASES at 3 p. m. of every Monday throughout the year, in the upper amphitheater. The extensive collection of plates and photographs, lately purchased by the college, has been arranged in cabinets, on the same floor and adjacent to the amphitheater, with a special view to the illustration of this department.

**DISEASES OF THE EYE AND EAR.**

Prof. Holmes, with the assistance of Dr. W. T. Montgomery or Dr. Belfield, will give every Wednesday (3 p. m.), throughout the year, a clinic in the amphitheater, on DISEASES OF THE EYE AND EAR.

### AT THE COUNTY HOSPITAL.

*(Opposite the College Building.)*

The hospital, standing on a block of twelve acres of land, was erected at a cost of nearly half a million dollars. Extensive additions to the hospital are now being made, at a cost of a quarter of a million of dollars.

The amphitheater of the hospital, with a seating capacity for six hundred persons, is the clinic room in which all the surgical, medical and special clinics are held. More than two thousand patients were treated at the hospital during the past year; nearly two hundred important surgical operations were performed, of which forty were capital amputations.

In the rear of the amphitheater is the Mortuary or Necropsy Amphitheater, in which are held all the post-mortem examinations of the hospital. Most ample opportunities will be given for the complete study of the gross as well as the microscopical appearances produced by disease.

### AT THE ILLINOIS CHARITABLE EYE AND EAR INFIRMARY.

*(Corner of Peoria and Adams Streets.)*

This large institution affords almost unlimited facilities for the clinical study of Diseases of the Eye and Ear.

During the past year more than 2,500 patients received treatment at the Infirmary; 300 operations were performed.

Regular clinics will be given during each week of the session by Drs. Holmes Hotz, Ware, Montgomery and Schaefer.

### AT THE CENTRAL DISPENSARY.

Extraordinary opportunities are offered to students and practitioners for clinical instruction at the Central Free Dispensary, which occupies the first floor of the college building. More than six thousand different patients received treatment in this dispensary during the past year. The average daily attendance of patients was more than fifty. Patients are classified according to their diseases. Every opportunity is afforded for the study of specialties. Students of Rush College only are admitted.

One clinic will be given weekly, by each of the following named gentlemen:

Drs. E. F. Ingals and J. A. Robison, on DISEASES OF THE CHEST AND THROAT; Drs. W. J. Maynard and R. D. MacArthur, on SKIN AND VENEREAL DISEASES; Dr. A. C. Cotton, on DISEASES OF CHILDREN; Drs. E. W. Whitney and D. W. Graham, on SURGERY; Drs. W. T. Montgomery and W. T. Belfield, on DISEASES OF THE EYE AND EAR; Prof. Brophy and Dr. Talbot, on DENTAL SURGERY.

### DISEASES OF THE TEETH AND MOUTH.

Prof. Brophy and Dr. Talbot will give three weekly clinics in this department of the dispensary.

A large number of cases are treated at these clinics, which are of no less interest and practical importance to the student of medicine and surgery than to the dentist.

### HOSPITAL INTERNES.

Positions of internes in the Cook County Hospital, and the St. Luke's and Michael Reese Hospitals, are open each spring to students who graduate and pass a competitive examination held by the respective hospital staffs.

The occupants of these positions receive their board and lodging, and secure an extensive experience in every department of practical medicine and surgery.

### EXAMINATIONS FOR THE DEGREE.

The regular examinations for the degree are held only once annually, during the last week of the winter session.

Students, however, who will enter the college for at least three full winter terms of study, may receive their final examination in Descriptive Anatomy, Physiology, Chemistry, Materia Medica, and Therapeutics at the close of the second winter term. This will enable them to devote special attention to clinics and the practical branches during the third winter session. Those students who take the three winter courses, and desire to be examined in the elementary branches, as above indicated, will be required to advance one-half of the examination fee.

Students who have failed in their examination for the degree of Doctor of Medicine may receive their diplomas at the close of the spring term on passing a second examination in those branches in which they were deficient. There will be no fee for the second examination.

### FEES FOR THE ANNUAL WINTER COURSE.

Matriculation fee.....	\$ 5 00
Lecture fees for the course.....	75 00
Admission to the dissecting room—material at cost price .....	5 00
Admission tickets are issued only to holders of the general ticket.	
Practical chemistry—chemicals at cost price.....	5 00
Examination for degree—fee not returnable.....	30 00

Three-years students, examined at the end of their second winter, must advance one-half of this fee.

(There is no graduation fee.)

From Alumni of this college, and from its students who have taken and paid for two full courses of lectures, the matriculation fee only (\$5.00) will be expected. From Alumni of other respectable medical colleges the matriculation fee and one-half lecture fee will be required.

Tickets for Cook County Hospital (good till the following March) and for the Eye and Ear Infirmary—good for one year, each..... \$ 5 00

### FEES FOR THE ANNUAL SPRING COURSE.

Matriculation fee.....	\$ 5 00
Lecture tickets.....	20 00

This amount will be deducted from the fees of the next following winter session.

Graduates of the college are admitted on payment of the matriculation fee only; graduates of other regular medical colleges on payment of matriculation fee and ten dollars.

Fee for Practical Chemistry (students will also pay cost price for chemicals used).....	5 00
Admission to the dissecting room—material at cost price.....	3 00
Tickets for the Cook County Hospital, and for the Eye and Ear Infirmary—good for one year—each.....	5 00

### DIRECTIONS TO STUDENTS.

Students will matriculate, and obtain their tickets at the college, from the Treasurer, Professor Gunn, or from Mr. Frank J. Gould, the College Clerk.

Students may select their seats in the lecture-rooms when they take their tickets, or the Treasurer will select for them, on receipt of the matriculation fee previous to the opening of the session; *but seats thus pre-empted, if not occupied before the end of the second week of the winter term, will be forfeited, and assigned to students who are present to occupy them.*

The College Clerk may be seen in the college building, and will aid in obtaining boarding-places, rooms, etc.

For further information address the Secretary, Prof. J. H. Etheridge, M.D., 1634 Michigan Avenue.

#### BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from \$3.00 to \$5.00 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates. Day board, \$3.00.

#### PRELIMINARY EXAMINATION.

In accordance with an announcement heretofore made, a preliminary examination will be required as a condition of admission to the regular winter course of lectures, after the close of the present college year (1882-3).

Gentlemen who are graduates of a literary or scientific college, academy or high school, or who have passed the entrance examination to a literary college in good standing; who have a county or state teacher's certificate; graduates in medicine; previous matriculates of this college; and students who desire to pursue a special course of study—other than for the purpose of securing the degree—will be exempt from this examination.

The examination will include the writing of a brief paper, not to exceed a page of foolscap, on a subject to be given; and an examination in the elementary principles of physics\* and mathematics, as taught in the public schools of the country. The written paper will be a sufficient indication of the student's knowledge of orthography and grammar, as well as of the subject given.

Students may take this examination either at the beginning or end of the spring term or at the beginning of the regular winter session.

Gentlemen are advised, before coming to the College, to acquire the documentary evidence of their preliminary education, as indicated above, and thus save themselves the necessity of an examination.

Arrangements will be made for holding this examination in parts of the country at a distance from Chicago.

Students who have completed a full course of study equivalent to that required for admission to this college, may, by special arrangement, be admitted on the certificates of their instructors.

*It is important to notice that the diplomas of such schools as do not require an examination preliminary to entrance are not accepted as qualifying for practice in Illinois; gentlemen presenting them will be compelled to undergo a re-examination by the State Board of Health.*

#### COMPLIMENTARY BANQUET.

The Faculty will give their annual banquet at the Grand Pacific Hotel the evening of Commencement Day, at 7 o'clock. All Alumni of the College in good standing are cordially invited to attend.

---

\* Or Physics as taught in Fowne's "Chemistry," Steele's "Fourteen Weeks in Natural Philosophy," or any other similar text-book.

TRUMAN W. BROPHY, M.D., D.D.S.,  
Professor of Dental Pathology and Surgery.

125 State Street

E. FLETCHER INGALS, A.M., M.D.,  
Professor of Laryngology.

168 Clark Street

FACULTY.

MR. FRANK JORDAN GOULD, *College Clerk.*

# PRACTITIONERS COURSE

1883.

---

HE Practitioners Course of Lectures in this College will commence on Tuesday, April 3, 1883, and will conclude on the first of the following May, thus continuing four weeks.

This Course is for the special benefit of practitioners of medicine, graduates or non-graduates, and is wholly distinct from the lectures to students in the college curriculum. A certificate of attendance, signed by the President and Secretary of the Faculty of the college, is granted at the conclusion of the course.

The upper auditorium of the college building will be devoted exclusively to the use of practitioners during these lectures, which will thus be entirely separate from the annual spring course attended by students in the lower amphitheater. A requisite portion of the dissecting room will also, during the month, be exclusively allotted to those in attendance who desire to dissect or to perform the operations of surgery. An abundance of material, both for operations and dissections, will be supplied at cost.

Lectures will be given by the Faculty on the subjects named below :

PROF. ALLEN.

A course of eight lectures on the Derangements of Digestion.

PROF. MILLER.

A course of eight lectures on selected topics in Obstetrics of most practical moment to physicians.

PROF. GUNN.

A course of eight lectures on the Philosophy of Manipulation in Dislocations of the Hip and Shoulder; and some of the more important Fractures and Operations, with Practical Demonstrations.

PROF. ROSS.

A course of eight lectures on the Clinical Investigation of the Diseases of the Heart.

PROF. BYFORD.

A course of eight lectures on Selected Subjects in Gynæcology, of special interest to the General Practitioner.

PROF. HOLMES.

A course of eight lectures on the Diagnosis and Treatment of the more important Diseases of the Eye and Ear.

PROF. LYMAN.

A course of eight lectures, devoted to a Practical Discussion of Diseases of the Nervous System.

PROF. ETHERIDGE.

A course of eight lectures on New Remedies.

PROF. PARKES.

A course of eight lectures on Regional Demonstrations and Special Dissections.

PROF. HYDE.

A course of eight lectures on the Skin and Venereal Diseases.

PROF. BRIDGE.

A course of eight lectures on Fevers and their Practical Management.

PROF. INGALS.

A course of lectures on Laryngology.

## DR. BELFIELD.

A course of eight lectures on the Diseases of the Genito-Urinary Organs, including Microscopic Examination of Urinary Sediments.

## DR. MCARTHUR.

A short course of lectures on the Chemistry of the Urine.

---

Four or five lectures will be given daily. From 2 to 4 p. m. of each day the regular College, Dispensary, Hospital, and Eye Infirmary clinics will be held. At clinics seats will be reserved in the arena of the College amphitheater for practitioners in attendance, thus affording them the amplest opportunities for practical observation and study.

In addition to this, practical instruction will be given each day in Gynæcology by the clinical adjuncts of that chair, Profs. Etheridge and Nelson, and Dr. Adolphus. Facilities are thus extended for intimate personal examination of a large number of interesting cases in this department.

The **Illinois Charitable Eye and Ear Infirmary** (cor. Peoria and Adams streets) is open to practitioners of this course without charge. This institution furnishes superior facilities for the study of the diseases of the eye and ear. During the past year more than 2,500 patients have received treatment; 300 operations were performed. Daily clinics will be given to practitioners.

The **Central Free Dispensary**, an independent organization occupying the first floor of the College building, offers unusual opportunities for clinical observation and for the study of specialties. More than six thousand different patients, with an average daily attendance of more than fifty, received treatment here during the past year.

Students of Rush College only are admitted.

**Fees** for the the entire course, including matriculation, clinical instruction, and use of dissecting room (material only extra, and at cost); thirty dollars.

The chemical and microscopical laboratories will be open for practical work to such as desire it, on the same terms as those made to undergraduates.

**Tickets** can be had at any time by applying to the Clerk of the College, **Mr. FRANK J. GOULD**, at the College building, either in person or by letter. Seats can be secured by forwarding the matriculation fee to the Clerk of the College.
